DETAILED ACTION

Allowable Subject Matter

1. Claims 1-31 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches a method or apparatus for printing comprising the steps of submitting a print job to the printer resources; detecting a mid-job mismatch between the print job attributes and the printer resources; displaying available remediation options on a user interface to be selected from; receiving the selected of options from the user and executing the options.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Brewington discloses other example of method and apparatus for resolving print job attributes mismatch.
